

WELCOME TO THE HPSS HOME APPLIANCES MANAGEMENT SYSTEM

About Our System

HPSS HOME APPLIANCES MANAGEMENT SYSTEM is application for managing the products of HPSS HOME APPLIANCES shop. At first the shop donot have the proper system to store the products. So that they have very difficult time to deal to products during selling, storing, searching the products.

This system will helps the shop to store and differentiate the products, with their serial number, name, brand, category. It also helps works to know the price of the items, and their manufacture date and quantity of the products that they have.

Advantages of Management System

1. It Facilitates planning : MIS improves the quality of plants by providing relevant information for sound decision – making . Due to increase in the size and complexity of organizations, managers have lost personal contact with the scene of operations.
2. In Minimizes information overload : MIS change the larger amount of data in to summarized form and there by avoids the confusion which may arise when managers are flooded with detailed facts.
3. MIS Encourages Decentralization : Decentralization of authority is possibly when there is a system for monitoring operations at lower levels. MIS is successfully used for measuring performance and making necessary change in the organizational plans and procedures.
4. It brings Co ordination : MIS facilities integration of specialized activities by keeping each department aware of the problem and requirements of other departments. It connects all decision centers in the organization .
5. It makes control easier : MIS serves as a link between managerial planning and control. It improves the ability of management to evaluate and improve performance . The used computers has increased the data processing and storage capabilities and reduced the cost .
6. MIS assembles, process , stores , Retrieves , evaluates and Disseminates the information .
